Let's begin...

CHAPTER 1: Introduction to Cannabinoid Skincare (CBD & CBG)

What sets our CBD & CBG skincare products apart?

At My X Wellness, we take pride in crafting exceptional CBD & CBG skincare products that combine the power of these powerful cannabinoids with natural, carefully selected ingredients. Our commitment and track record of quality sets us apart in the industry. Our founder, Josh, has been a leading developer of robust, soothing cannabinoid formulas for over a decade. He brings this dedication to My X Wellness and our [Affiliate Program](#).

Meticulous care goes into each formula before it can be bottled up and sold on the market. Maintaining this exceptional standard is critical to our success and commitment to our customers and affiliates.

Cannabigerol (CBG) is often overlooked in this healthcare space, where CBD is still king. One important and effective way My X Wellness delivers a superior product is our inclusion of CBG into every product we develop. We use a robust 2:1 CBD:CBG formula standard in every product, which sets us apart as an industry leader.

The growing demand for CBD in the skincare and wellness industry

As the skincare industry evolves, the demand for CBD-infused products continues to rise. CBD offers numerous potential benefits for the skin, including hydration, soothing properties, and antioxidant effects.

In particular, the hemp market has seen incredible growth in recent years, with forecasts expecting further expansion. According to reports from *Grand View Research* and *Markets and Markets*, the global industrial hemp market was valued at USD 4.74 billion in 2022 and is expected to grow at a compound annual growth rate (CAGR) of 17.1% from 2023 to 2030. The rising demand for industrial hemp across various industries, including food & beverage and personal care is driving this growth.

Additionally, projections estimate the hemp market will reach a value of \$13.03 to 14.67 billion by 2026. CBD oils, which are predominantly used in pharmaceutical, food, and cosmetic products, contribute significantly to the CBD market's overall worth. Experts predict the CBD market to be worth \$5.3 billion by 2025, with a CAGR growth of 40.4% over the five-year period. These figures reflect the consumer-driven nature of the hemp market and highlight the incredible opportunity for affiliate marketers to tap into this emerging industry.

Join us in meeting this increasing demand!

The power of holistic wellness and self-care

At My X Wellness, we believe that true beauty comes from within. Our CBD:CBG skincare products are formulated to promote holistic wellness and self-care, nurturing not only the skin but also the mind and body. The Endocannabinoid System (ECS) regulates internal balance and harmony (homeostasis) naturally. Every one of our Fine Products is formulated with the ECS and homeostasis in mind. Explore our [Affiliate Resources](#) page for more insights into skincare, cannabinoids, and the ECS.
